

REACH (EU regulation (EC)) 1907/2006 and subsequent amendment

Quality Statement

To Whom It May Concern

REACH is the Regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals. It was put into effect on June 1, 2007. The main goals of REACH are to ensure a high level of protection of human health and the environment from the risks that can be posed by chemicals, the promotion of alternative test methods, the free circulation of substances on the internal market and enhancing competitiveness and innovation.

REACH makes industry responsible for assessing and managing the risks posed by chemicals and providing appropriate safety information to their users. In parallel, the European Union can take additional measures on highly dangerous substances, where there is a need for complementing action at EU levels.

FLEX Connection products, to the best of our knowledge, do not contain SVHC high risk substances as listed on the ECHA website http://echa.europa.eu/web/quest/candidate-list-table and as such, we do not consider any supply risk linked to REACH in relation to products manufactured by FLEX Connection.

Yours sincerely, FLEX CONNECTION LTD.

Martin Gilbert
